PROFESSIONAL SUMMARY

Dynamic and results-driven Full Stack Web Developer with over 3 years of experience designing, building, and deploying robust web applications. Proficient across modern front-end frameworks and back-end architectures, with a proven track record of collaborating in agile team environments to deliver scalable digital solutions, corporate platforms, e-commerce platforms, and enterprise software tools.

PROFESSIONAL EXPERIENCE

FULL STACK WEB DEVELOPER

January 2022 – Present

Freelance & Digital Solutions | Kinshasa, DRC

- **Engineered and launched** an interactive e-commerce web application (**www.higherjess.store**) optimized for seamless multi-device browsing, allowing users to search real-time prices, view comparisons, and purchase laptops and mobile devices.
- **Collaborated in an agile squad** of 10 developers to design, develop, and deploy a responsive Point of Sale (PoS) ERP system utilizing JavaScript and PostgreSQL under a strict 2-month delivery mandate.
- **Developed and optimized** a fully operational school portal for *Institut Technique Médical Happiness Dominique* (itmhd.com) leveraging HTML5, CSS3, and modern modular JavaScript, simplifying parent-school communication pathways and streaming operational updates.
- **Executed rigid quality assurance (QA) testing** blueprints on a multi-tier business planning ecosystem built by a 20-developer cohort at *Quantum Vertex*, mitigating production bottlenecks and ensuring stable performance parameters.
